

Conversion

Responsive Landing Page

Overview

Conversion is a one page responsive template ideal for companies that offer products or services. The design ensures minimal effort in setting up a striking landing page for your startup, plugin, app, offline business or software services.

Files

All relevant template files can be found in the templates folder. There are a number of home page options available for use as well as a generic standard page (page.html) which could be used for general information pages (About Us, Terms & Conditions etc)

Setup and configuration

We have made all layout and color variations available in HTML. Should you wish the use a specific layout with a different color variation, please follow these simple steps:

1. Open the relevant HTML home page template in a text editor.
2. Go to line 8
3. Edit the number of the stylesheet name. Example, change 'style-color-01.css' to 'style-color-02.css'. There are 6 color variations available.
